West Jefferson, NC 28694

Open and Accepting
Patients August 2019

We know it can be difficult to lose your family physician, especially when they've been in the community as long as Dr. Hank Clay and his staff. That's why Dr. Clay's office has partnered with ours to make the transition as easy as possible. Beginning in August 2019, our two family physicians will be accepting new patients of all ages, including Dr. Clay's former patients if they'd like. We are both board certified family physicians and do office, hospital, pediatric, and obstetric care and offer complete primary care services through an innovative membership-based model. You'll find that our patients save significantly with our wholesale lab pricing and the medications we dispense in the office. You're receiving this notice because someone in your household was at one point a patient at Dr. Clay's office and we hope you'll choose to join us too; check out the New Patient Enrollment section of our website if you'd like to. If not, you may direct any medical records requests to our office as we will manage these for Dr. Clay and his staff moving forward.

Yours in health,

D. Landon Allen, MD, MPH, MBA
